EXPERIENCE

Sure Thing Toys, East Rutherford, New Jersey

Warehouse Associate

December 2020 – June 2021

- Processed, packaged, and shipped orders accurately while effectively organizing and maintaining warehouse inventory.
- Received and unloaded incoming inventory items while checking for inventory discrepancies.
- Oversaw integrity and accuracy of all products leaving the warehouse during active shifts

Memorial Sloan Kettering Cancer Center, New York City, New York

Department of Health Informatics Operations Intern

May 2019 – August 2019

- Converted medical surveys from paper to digital format using MSK Engage survey software
- Tested survey functionality
- Collaborated with translation services in order to translate documents to Russian
- Researched how image-recognition and deep-learning can improve medical screening
- Presented findings to members of the department and c-suite executives

PROJECT EXPERIENCE

COPE Program Application, Human-Computer Interaction

January 2020 – May 2020

- Utilized Adobe XD to redesign user interface of a local government website
- Improved “emergency alert” design and visual hierarchy of front page images
- Designed high fidelity prototype in mobile app format

Artificial Intelligence in Medical Imaging, MSKCC

May 2019 – August 2019

- Researched how image-recognition and deep-learning can improve medical screening
- Evaluated pros, cons and cost benefits of the technology
- Audited funds into partnership with Paige.AI
- Presented this information to upper management, including c-suite executives

MedPortal, Management of Technological Organizations

January 2019 – May 2019

- Designed mobile app in Adobe XD that assists users who suffer from cognitive disabilities
- Created an interface that simplifies the healthcare process for both patient and healthcare professional
- Included features such as tracking of medical records, smart device compatibility and ADA compliance
- Showcased mobile app to senior level Fortune 500 employees
